Directed by Academy Award-nominated producer Marc Smolowitz, **THE POWER OF TWO** is an inspiring story about love, hope and survival. The film offers an intimate portrayal of the bond between half-Japanese identical twins, Anabel & Isabel Stenzel, their lifelong battle with the genetic lung disease cystic fibrosis, survival through miraculous double lung transplants, and improbable emergence as authors, athletes and global advocates for organ donation.

The Camera as Witness Program is generously supported by The Annenberg Foundation and Helen and Peter Bing
