

Camera As Witness, Stanford Arts and
The Mechanical Engineering Design Group present

TUESDAY, March 6 at 4:30PM

Thomas F. Peterson Engineering Laboratory
Building 550, 416 Escondido Mall, Stanford University

FREE and open to the general public

The story of Bob Coomber, an intrepid adventurer who sets out to be the first wheelchair hiker to cross the 11,845-foot Kearsarge Pass in the Sierra Nevada. For Bob in his wheelchair, this adventuring is fraught with danger.

He must deal continually with altitude sickness and the threat of diabetic coma, not to mention possible fatal or crippling falls in the steep terrain. We gain an intimate, foot-by-foot familiarity with Bob's herculean effort and with some of the most perilous sections of the famous trail.

This story of overcoming immense obstacles will inspire us to look at our own self-imposed limitations and perhaps reach beyond what we think is possible.

After the screening conversation with the filmmaker **Tal Skloot** and the subject of the film **Bob Coomber**.

CAW is generously supported by the Atlantic Philanthropies, Helen and Peter Bing, The Marcus Family, the Vice Provost for Undergraduate Education et. al.
