## ANGEL AZUL

CASTING FOR A NEW GENERATION

### **ANGEL AZUL (72 MIN)**

PRODUCER/DIRECTOR: Marcy Cravat

**Angel Azul** explores the artistic journey of Jason deCaires Taylor, an innovative artist who combines creativity with an important environmental solution; the creation of artificial coral reefs from statues he's cast from live models. When algae overtakes the reefs however, experts provide the facts about the perilous situation coral reefs currently face and solutions necessary to save them.
